Washington, DC 20554

Dear The Federal Communications Commission,

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. Low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Don Samuelson Fort Collins, CO

Sincerely,

Donald Samuelson
